Profile

I have spent **11+ years** building pixel-perfect, mobile-responsive websites for international clients. I work across the **frontend and backend**, from CMS customisation to API integrations, and I'm a **Top Rated Plus** freelancer on Upwork.

I communicate clearly, I'm used to Agile/Scrum teams, and I look for solutions that perform well technically and meet the business goal.

Experience

Apr 2024 — Present
Blue Diamond Attachments
Remote

Full Stack Developer

- Built and deployed integrations with Salesforce CRM and Syteline ERP so data moves securely between the platforms.
- Integrated the Pacejet shipping API to streamline e-commerce fulfillment.
- Implemented Algolia search for fast, scalable and easy-to-use product search on e-commerce sites.

Jul 2018 — Apr 2024
JWAM
Remote

Full Stack Developer

- Delivered 100+ projects for startups, SMEs and agencies across Oceania and the US.
- Built responsive, high-performance websites and applications with React, Vue.js, PHP and Craft CMS.
- Built integrations including a Google Maps fuel-station locator, social media and CRM APIs, and payments (Stripe, PayPal, Australian banks).
- Managed projects end to end: requirements, development, deployment and support.
- Worked with international teams and clients in Agile-style iterative cycles.

Jan 2015 — Jul 2018
Luminoguru
Mohali, India

Software Engineer

- Developed and maintained web applications with HTML, CSS, JavaScript and Vue.js.
- Built responsive, cross-browser frontends and improved site speed through caching and code optimisation.
- Delivered client projects across several industries as part of an Agile team.

What clients say

> He did the job and we laugh at the same time. Always a pleasure. Estimated time was 13 hours ... done in 2 hours.
>
> Upwork client

> Excellent Developer. He was able to find the issue slowing my site in just a couple of hours. Highly recommended.
>
> Upwork client

> Karan is great to work with! Great developer, reliable, would highly recommend for any Craft CMS related project.
>
> Upwork client
